DiMarket

Africa's Digital Marketplace

DiMarket is a digital marketplace platform connecting businesses with customers across Liberia and beyond. Built for the unique challenges of African e-commerce -- including mobile money integration, last-mile delivery logistics, and multi-vendor support -- it creates a trusted ecosystem for buyers and sellers.

Key Features

- > Multi-vendor marketplace
- > Mobile money integration (MTN, Orange)
- > Inventory management per vendor
- > Order & delivery tracking
- > Vendor analytics dashboard
- > Customer reviews & ratings
- > Push notification marketing
- > Multi-language support
- > Secure payment processing
- > Admin commission management

Healthcare Connect

Connecting Patients with Care Providers

Healthcare Connect is an innovative platform connecting patients with doctors, medical facilities, and laboratories for flexible, accessible healthcare services across Liberia. It bridges the gap between healthcare demand and provider availability using technology that works on any device.

Key Features

- > Find & book doctors online
- > Telemedicine video consultations
- > Lab test booking & results delivery
- > Digital health records
- > Prescription management
- > Pharmacy locator & ordering
- > Insurance integration
- > Appointment reminders & follow-ups
- > Provider ratings & reviews
- > Emergency care directory
